

Return to Algeria

[Terugkeer naar Algerije]

Are you thinking about returning to your country of origin? The Dutch Council for Refugees can assist you with this so that you can make a good choice about your future.

Different organizations in the Netherlands assist with return. The Dutch Council for Refugees has no partner organization in Algeria. It may be possible to return via a different organization. We can connect you with such an organization. You yourself choose which organization is most appropriate for your situation.

For people from Alegria, there is support under the REAN scheme (Return and Emigration Assistance from the Netherlands). Under REAN you can obtain counselling, a plane ticket and assistance in obtaining travel documents. IOM is the organization that implements this scheme. Also other organizations that help with return can assist you in applying for such support. [You must however meet several conditions](#). Ask your counselor whether you are eligible for this support.
