[Apply to Step Up](#)

Dear reader,

We are happy to announce that our Step Up Fund is now open for another round of proposals for capacity-building of local and national NGOs.

We invite organizations working with refugees and asylum seekers in Cyprus, Greece, Italy, Malta, Poland or Spain to apply for a capacity-building grant of up to 10.000 Euro. Through the fund, up to 8 projects will be selected to be supported in the period between December 2023 and November 2024. The selected organizations will - if they like - be offered capacity-building support by us, the Dutch Council for Refugees, in the form of trainings or twinning.

The application deadline is the 9th of October 2023. You can read more about the Step Up Call for proposals and how to apply [on our website](#).

Online information session

An online information session about the Step Up Fund and this call for proposals will be held on Friday 22 September, at 10:00 am (CEST / Amsterdam), for which you can register below. We will share some tips and tricks for successful proposals, and NGOs can ask questions about the call.

Register now

International solidarity

In these times of crises, and as wars, violence and persecution persist across the globe, international and European solidarity for refugee protection is needed more than ever. As part of our international solidarity, the Dutch Council for Refugees runs the Step Up Fund to support NGOs to step up their capacity and to build new partnerships.

Spread the word

Are you, or do you know, an NGO in one of the eligible countries - Cyprus, Greece, Italy, Malta, Poland or Spain - who would be interested? Feel free to share this call for proposals with your network. If you have any questions, please do get in touch via ip@dcfr.nl.

Warmest wishes,

The international team of the Dutch Council for Refugees
